1

Before connecting the bracket attachments, remove any loose fiber material from the pre-cut holes. Install the C-Clamp brackets to the panels with the provided screws.
2

From the other side, align the holes of the Clamp Brackets with the C-Clamp and screw together tightly.

3

Loosen both C-Clamps until they can securely wrap around the edges of your desk.

4

Once in position against the desk, tighten clamps until the Panel is firmly attached.

When attached to a Branch Team Plus or Executive Standing Desk, the C-Clamps will contact the Desk Base supports before they are completely flush with the table's edge.

All Done!

Go ahead, try it out. You may experience what we call an "ahhh" sensation. That's completely normal. You're now well equipped for whatever the workday throws at you.

Now, don't be shy. Show us how it looks!
